PRICING:

Base Price:	\$68,500.00
Subtotal:	\$68,500.00
Total:	\$68,500.00
Balance	\$68,500.00

GENERAL SCOPE OF WORK

Included in the price above:

- Prepping and repainting the 3 buildings at the ASE - Aces campus.
- Buildings A, B & C are included to have the stucco siding, soffits, & doors.
- We will pressure wash the surfaces to be painted to remove dirt and debris prior to patching and painting.
- Cracks and damages in the stucco will be patched and spot primed prior to applying two coats of finish.
- All unpainted surfaces (awnings, floors, windows, etc.) will be masked and protected while painting.
- *Please reference the photos at the bottom of the proposal to see the current condition and specific items included in this bid.*

Options (Not included in the price above):

- Color Change Option - **\$15,000** *This option is for changing the currently bold painted colors to new colors. Bold colors are hard to get proper coverage over (for example - white over orange) and this option price includes a 3rd coat which would ensure proper coverage.*

Note:

- *This bid is assuming color placement will remain the same as the buildings currently are. If additional color placement is requested it may be an additional charge.*

This bid is based on the work being completed during normal business hours and includes all materials and lift equipment needed to complete the job.

SURFACE PREPARATION

- Caulk all previously caulked gaps and cracks in order to seal out moisture and drafts.
- Full scrape to all loose and peeling paint and stucco remaining after the power wash.
- Power wash using water to remove all loose dirt, oily residue, loose paint, mold, mildew, etc.

- Sanding to de-gloss where necessary to promote adhesion of the top coat.
- Stucco - Repair to all cracks, gaps and holes with flexible caulking and stucco patch as required.
- Trenching - we will trench approximately 2" where allowable.

Standard Level of Prep

Unless stated otherwise in pictures and/or text in this proposal, this project is priced to include our standard level of prep. This includes the following:

- Wash or wipe down surfaces being painted.
- Scrape and sand loose and peeling paint. Please Note** Scraping and sanding may not result in a smooth finish. There may be cavities where paint was removed. If you'd like those areas smoothed out or filled, this is an additional level of prep which can be done but at an additional cost called feather sanding.
- Spot prime bare wood, stucco and metal in areas being painted.
- Caulking to all previously caulked gaps & cracks.
- Stucco repair to all cracks, gaps and holes with flexible caulking and stucco patch as required.

This level of prep DOES NOT include (Unless specified otherwise in this proposal) the following:

- Wood replacement
- Fixing imperfections that require feather sanding and bondo application.
- Caulking to areas not previously caulked.
- Stripping existing surface coating.
- Sanding rough sawn wood to appear smooth.

Power washing: To remove dirt, algae, mildew and degraded or damaged wood fibers so the new finish coat will adhere properly. This step is for cleaning...not paint removal. Homes with loose paint will have many chips on the ground after washing which we can not remove until everything dries out. Small chips are impossible to rake out of the grass and planting beds so we will do our best to get them out but there will be some residue left over. Power washing will not remove oxidation stains from gutters and downspouts.

SET-UP

CUSTOMER TO:

Have all shrubs, bushes, trees, etc. trimmed 12" from surfaces to be painted.
 , Have colors approved 3 days prior to start , Have all items moved away from the building or moved inside.

CLEAN UP

To be completed daily and in full upon job completion.

A full clean up will be done upon completion to make sure your property is "presentable" when the work is complete (including sweeping and vacuuming paint chips).

NOTES

Customer Service Commitment: The goal for this job is to provide the best customer experience possible. This is accomplished by being friendly and courteous, by making the client feel part of the process with daily updates and excellent communication, by doing things right the first time, and by respecting your property. We recognize that we are guests, and respect the privilege.

Warranty on all work: We warranty all of our work for 2 years against blistering and peeling. This is not just a "handshake" warranty, this is a legal document.

Change Orders: Any changes to the scope of work detailed above, or to the color or gloss level of the paint to be used, requires customer sign-off on a change order form and will result in additional charges to cover time and materials if necessary.

Unforeseen conditions cannot be predicted, and therefore are not included in this bid, should something outside the scope of work be encountered, we will notify you and proceed upon your approval.

Note about Multi Coat Failures - In the event of a multi coat failure this will not be covered under any type of warranty. While we take every precaution to try and recognize any potential issues in most cases it is impossible to foresee the previous coatings releasing as a result of the our coating being applied. This is a result of the most recent coating having a stronger adhesion than previous coatings and or the base substrate and/or coating failing.

Scheduling: To schedule your project we will need a signed contract. Our office will reach out to you directly to discuss potential start dates. If you have any special considerations or deadlines that you need us to assist you with, please let us know and we will make the necessary special accommodations.

No Deposit Required: We simply ask that you pay the jobsite supervisor promptly upon job completion and your satisfaction.

Payment Options: Cash, Check or credit card. The price listed represents a cash discount (cash or check). The normal price is 3.0% higher.
